

# 國立彰化師範大學 99 學年度博士班招生考試試題

系所：地理學系

科目：地理學理論與方法

☆☆請在答案紙上作答☆☆

共 1 頁，第 1 頁

包含英文命題，但不限英文作答

共四題，每題皆需作答，每題 25 分

- 1.請評述各環境倫理學派面對自然的態度，並請評述現今台灣面臨「生態保育」與「經濟發展」的可能課題與對策。
- 2.人地關係是地理學的主要傳統之一，請舉例說明人地關係的不同觀點。
- 3.Geography is generally named as a spatial discipline by which geographers explore issues related to Space and Place. Please discuss the theoretical implication of fundamental concepts in geography—Space and Place under your own research specialty, and highlight the relation between them.
- 4.(A) What geomorphic features can be used as markers to provide a reference frame against which to gauge differential or absolute deformation by tectonic activity? (B) Unfortunately, the preservation of those geomorphic markers becomes increasingly fragmentary as they get older and more extensively dissected. Please provide some examples in Taiwan and the solution to approach the dilemma.
